Mr. George Radan
U.S.E.P.A.
Hazardous Waste Task Force
26 Federal Plaza
New York, N.Y. 10278

Dear Mr. Radan:

Pursuant to your request for the 10 page Potential Hazardous Waste Site/Site Inspection Form concerning the L.E. Carpenter Company facility in Wharton, New Jersey, I have learned that all requests for documentation from the Technical Assistance Team (TAT) must come through our D.P.O., Mr. Fred Rubel. If you could please call Mr. Rubel and request through him the material you require, I will then have the proper authorization to release the information you need. In the meantime, I will have the Site Inspection Form typed and ready to go as soon as Fred gives his approval.

I hope this paperwork shuffle hasn't inconvenienced you, and if you should need any further assistance please call.

Respectfully,

Kerry T. Webster
Kerry T. Webster

JULY 9, 1980 CALLED FRED RUBEL TO GET OK FOR THE ABOVE REQUEST.
FRED WILL CALL KERRY TO RELEASE THE NEW 10-P SITE REPORT.

9/3/80
